HERE IS A REAL DYSPEPSIA CURE

"Pape's Diapepsin" Settles Sour, Upset Stomachs in Five Minutes

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Dyspeptic get this down: Pape's Diapepsin digests everything, leaving nothing to sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is disordered you will get happy relief in five minutes. But what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear.

Most remedies give you relief sometimes—they are slow, but not sure. Diapepsin is quick, positive and puts your stomach in a healthy condition so the misery won't come back.

You feel different as soon as Diapepsin comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructations of undigested food, your head clears and you feel fine.

Go now, make the best investment you ever made by getting a large fifty-cent case of Pape's Diapepsin from drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder.—advertisement.

'54' HUDSON--a Six.

65 miles an hour. To 59 miles an hour in 30 seconds, from standing start.

**The Two New HUDSON Cars That 48 Engineers Built**

The picked engineers from 97 European and American automobile factories combined in building the new HUDSON cars. There are 48 experts in the organization, at the head of which is Howard E. Coffin, America's leading automobile engineer and builder of six famous cars. Combined, these men had a hand in building more than 200,000 motor cars. No car can be greater than its engineers planned it to be. We believe mechanical perfection is more quickly and thoroughly accomplished through combining the experience and skill of many men than is ever possible if dependence is placed entirely upon one man.

HUDSON Electric Self-Starting --- Electrically Lighted**The Six**

The "54" HUDSON supplies every demand made of any automobile, in speed, get-a-way, safety, power, luxurious equipment, distinctive appearance and comfort.

It is not merely a "Six" made so by the addition of two cylinders to a good four-cylinder car. It is capable of a speed of 65 miles an hour with full equipment and will jump to a speed of 59 miles an hour in 30 seconds from a standing start.

Its equipment is complete in every detail, which includes an electric self-cracking, electric lighting—dynamo type—and ignition system, known as the Delco, patented. Illuminated dash and extension lamp, mohair top, curtain, rain vision windshield, speedometer, clock, demountable rims, 36x4 1/2-inch tires, 127-inch wheel base, etc.

The seat cushions are 12 inches deep, Turkish type. The finest materials are used throughout. No detail of finish or equipment is skimmed or overlooked.

'54' HUDSON Models: Five-passenger Touring Car and Torpedo and Two-passenger Roadster, \$3450 each, f. o. b. Detroit. Seven-passenger Touring Car, \$3500 additional. Limousine, 7-passenger, \$3750; Coupe, 3-passenger, \$3950. Open bodies furnished with Limousine and Coupe at extra charge.

See the Triangle on the Radiator.

The Four

No man need be told that Howard E. Coffin leads all in building four-cylinder cars. No designer has built as many successful automobiles.

In building the HUDSON "37" all his skill and experience contributed to its perfection. In addition there was also worked into the car the skill and experience of his 47 expert associates.

Thus was produced a car such as no one man is capable of building. It is truly a composite masterpiece.

The "37" combines all that these experts know in the art of automobile building. Its detail of comfort, beauty, distinctiveness and equipment is precisely the same as that furnished on the "Six."

The car has sufficient power for every requirement. It is quiet and free from the degree of vibration common to most automobiles.

It is a simple, accessible, durable car—the best our 48 engineers know how to build; therefore we unhesitatingly recommend it as the Master of any four-cylinder car, regardless of cost, power or make.

Models are Five-passenger Touring and Torpedo and Two-passenger Roadster at \$1875 each; Limousine, \$2250; Coupe, \$2350; f. o. b. Detroit. Open bodies with Limousine and Coupe, extra.

TO SEE TREASURE.

That treasure is buried on one of the South Sea islands off the coast of South America is the belief of Capt. H. Blanchard, the well-known kamaaina, and he also claims to know the whereabouts of it and is anxious to have someone supply him with a schooner in order that he may journey to the island and unearth the loot buried there by some former South Sea pirate. Capt. Blanchard is seventy-six years of age, and became prominent in Honolulu several years ago by announcing that the county of Honolulu owed him a new set of teeth. He now lives in Palolo Valley where he has a small farm, and he still clings to the memories of days gone by, as he was a member of a Rhode Island regiment during the Civil war, and claims to have been acquainted with several of the prominent pirates who infested the South Seas at that time.
